Great - thanks for letting me know. FYI - John Kelly of the Washington Post just emailed us about this, and we'll share the statement.

To All,

Please see the attached draft statement and make or relay any needed edits. I spoke with InTowner Managing Director P.L. Wolff, who said "sorry we created problems" but was delighted to learn that people actually read the InTowner. He wouldn't connect me to the freelance writer, but promised to relay any statement and to publish a correction.

Thanks-
